## Erlebniswelt Muotathal GmbH

**The Erlebniswelt Muotathal theme park offers unforgettable adventures and experiences in the natural environment and cultural landscape of Muotathal, with suitable catering and unique accommodation options also available.**

The wild and romantic natural landscape of the Muotathal valley reflects Switzerland in its original form, with unspoilt spruce forests, remote woodland glades, glittering white karst fields, sturdy mountain huts and timid wild animals. The „Husky Lodge“ restaurant seats 120 guests and forms the centre of the chalet hotel. All around the main building, guest chalets blend in harmoniously with the natural landscape. 32

Siberian huskies complete the team here, enabling sled tours and family encounters all year round.

The large range of options on offer has resulted in a high demand for vouchers for many years. To control all these accounting processes as simply as possible, the decision was made to use e-guma's professional voucher system. This greatly reduced the administrative burden and also resulted in an immediate increase in voucher revenues. Marco Imhof, Guest Director, would particularly like to emphasise the support offered by e-guma, and their invariably knowledgeable, efficient and solution-oriented approach.

**e-guma is the ideal solution for our bookkeeping, and revenues for voucher sales have increased. Whenever any questions arose, the support team always came up with a knowledgeable, efficient and solution-oriented response.**

Beat Heinzer, Executive Director
